

Photography Worksheet

To ensure that your photographer captures all the most important moments of your wedding on film, provide them with a list of specific events and names of important guests to photograph. You will want to be sure to designate a close friend or relative to help the photographer locate the people on it. Discuss with your photographer which shots should be in color and which should be in black and white. (Use the space to the right of the event to take notes or list specific names, then make three copies; one for the photographer, one for the assistant and one for your wedding planner.)
